Advising:

All first majors must be cleared for registration by their advisors in person. We recommend that all majors arrange periodic planning sessions with their advisor. The discussions should cover not only courses in the major but also your larger academic program and the evolution of your career plans and job search activities. We want to assist you in whatever way we can. Here are some helpful things that you can do when you meet with your advisor:

- Come prepared. Know what you want to accomplish in each session.
- Sketch a long-range plan, even a tentative one. Revise as necessary.
- Each semester, check your status with respect to required courses.
- Book bag the courses you would prefer to take but also think about and prepare a backup set of courses in case those you choose are closed. Remember, seniors and juniors have priority in course assignments.
- Check your email. Contact your advisor several days prior to your registration window.
- If you do not know your advisor, and pre-registration is approaching, contact the Assistant to Director of Undergraduate Studies.

We are so glad you are joining us and look forward to being a part of your success here at Duke!

Sincerely,

Angel Harris
 Director of Undergraduate Studies
